

Import Licenses to India

On April 1, 2003, an important regulatory document with a significant effect on all API manufacturers was issued by the Indian Ministry of Health. This document makes it mandatory to register active pharmaceutical ingredients (APIs) for commercial purposes at the Drug Controller General of India in order to import them into India.

For the following APIs, Bachem holds the required import license for India:

- Calcitonin (salmon) Ph. Eur.
- Goserelin Acetate Ph. Eur.
- Leuprolide Acetate Ph. Eur.
- Somatostatin Ph. Eur.

- Carbidopa Ph. Eur.
- Propofol Ph. Eur.

In addition to the above-mentioned APIs, registration of the following APIs with the Drug Controller General of India is in process or planned:

- Desmopressin Acetate Ph. Eur.
- Glucagon
- Nafarelin Acetate
- Octreotide Acetate
- Triptorelin Acetate
- Buserelin Acetate Ph. Eur. (planned)
